January 28, 2018

Hello Corpus Christi Families,

As we enter Catholic Schools Week 2018, I want to share the three most important elements of a Catholic Education in 2018: faith, service, and scholarship. These hallmarks of a well-rounded Catholic education have not changed since the school's founding. Last week was an amazing experience for our students. A vast majority of our students earned at least one of our incentives for their growth on the MAP test. Families in Kindergarten to 8th grade received their MAP growth reports last week. Overall, our students are on the right path. The vast amount of growth on the test is a result of our students, teachers, and families working very hard each and every day. Thank you for your continued support. Please check our website ccschoolnyc.org often for updates, news, and to view the upcoming calendar.
